## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite. With respect to lines 13 and 15, it is unclear as to whether the lift lines and cranking means is used to perform the recited functions because of the use of “may be”.

Claims 6, 13 and 19 have similar problems.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 6, 8, 11-13 and 17-19 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 2,301,994 to Atkinson.

Atkinson discloses, among other things, a rotatable reel 10; two lift lines 11; attaching means (unnumbered); mounting means (see Fig. 2); cranking means 12 and locking means 13.

***Allowable Subject Matter***

Claims 5, 7, 9, 10 and 14-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

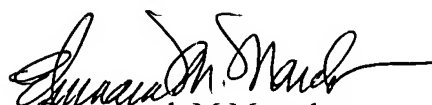

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
